

The background of the entire page is a photograph of a park-like setting. In the foreground, a wooden walkway with a railing made of vertical wooden posts and a horizontal metal handrail curves through the frame. In the background, two people are walking away from the camera. A woman in a red coat is carrying a child in a red coat. The background is filled with lush green trees and foliage, creating a soft, out-of-focus effect.

ACCOYA®

A new way of thinking about wood

UNRIVALED

performance, finish and sustainability

Accoya® turns everything you know about wood on its head.

Through a revolutionary scientific process called acetylation, it modifies wood to give it properties above and beyond the very best hardwoods – and in many cases, aluminum and PVC.

Since its launch in 2007, Accoya has been selected by hundreds of manufacturers as their wood of choice and used on some of the most architecturally significant projects in the world. But perhaps its most exciting application is in everyday homes, where it brings new possibilities for windows, doors, decking and siding.

The benefits of Accoya mean that timber projects can now be designed with absolute confidence. Our quality mark signals the Accoya difference.

Performance beyond any other wood

Accoya brings unprecedented reliability for timber; it is checked and trusted not to visibly swell, shrink or distort. Highly durable, it withstands the test of any climate. And what's more, it stays that way – a 50 year above ground, and 25 year below ground and freshwater warranty are testament to the fact that you can expect to enjoy your Accoya wood for many decades to come.

Finish with the ultimate consistency and quality

Finish sums up many of the reasons architects and manufacturers love working with Accoya – coatings look brilliant and last longer, and its easy and hassle free care, save time and money in the long-term. It also offers huge design freedom, with the ability to create a multitude of textural finishes such as smooth, charred and brushed, plus custom size and finish options for endless creativity.

Sustainability unrivaled anywhere in the market

Accoya is the truly sustainable choice that helps you meet global challenges like climate change. From source to production and through to end of life, sustainability shines through. Accredited by the FSC® and Cradle to Cradle Gold certified™, it is the only construction material in the world to achieve C2C Platinum certification™ for Material Health. With a low carbon footprint, you can help combat carbon emissions for a healthier world. It's also non-toxic, so it's safe for people and pets as well as the planet.

Siding

When aesthetics and low maintenance are critical, Accoya becomes the clear choice – it's ideal for siding where the elements will do their worst. Long lasting coatings with low maintenance will keep siding looking great. Customizable profiles and finishes allow you to get the look you want, with the availability of wide boards allowing you ultimate creative freedom.

Windows & Doors

Thanks to their stability, Accoya windows and doors open effortlessly all year round – and will for decades to come. Long lasting coatings keep windows and doors looking pristine for longer, and natural insulation keeps homes cozy and energy costs down. A low lifetime maintenance cost makes Accoya a worthwhile long-term investment at little cost to the environment.

Decking

Accoya's high stability allows you to lay decking with smaller gaps – that means a more even surface that stays smooth for longer. Highly durable, it suits all climates and its cool, splinter free finish makes it perfect for delicate bare feet. Accoya decking is also a non toxic choice that's safe for people, pets – and the environment.

Inspiration

There's really no limit when it comes to the design potential of Accoya – from park benches to guitars, outdoor sculpture and planters, the possibilities are endless.

Wood to change the world.

Accoya wood is made by Accsys at its plant
in Arnhem, in the Netherlands. Accsys transforms
fast-growing, certified sustainable wood into
Accoya wood through its proprietary acetylation
process. The result is high performing timber with
sustainability credentials that exceed those of
man-made, intensely resource depleting and
heavily carbon-polluting alternatives.

Accoya® and the Trimarque Device are registered trademarks owned by Titan Wood Limited, a wholly owned subsidiary of Accsys Technologies PLC, and may not be used or reproduced without written permission. Accoya wood should always be installed and used in accordance with the written instructions and guidelines of Accsys Technologies and/or its agents (available upon request). Accsys Technologies accepts no liability for any defect, damage or loss that may occur where such written instructions and guidelines are not adhered to.
